PROFILE

I'm a Senior UI/UX Designer with over 10 years of experience combining brand strategy, interaction design and visual design to build scalable products that balance user needs with business goals.

I run research, stakeholder workshops and user interviews, and I build the design systems that keep products consistent. I use AI tools, including Claude, for research, test variations and repetitive Figma work, so more of my time goes into design decisions.

EXPERIENCE

Senior Analyst, Experience Design
Dec 2022 – Present

GROWTHOPS

- Deliver UX and interface design for well-known regional brands across banking, aviation, e-commerce and insurance.
- Build and maintain design systems, run stakeholder workshops and lead user interviews across web and app products.
- Brought AI tools, including Claude, into the design workflow for competitive research, A/B test variations and automating repetitive Figma tasks.

Brand Strategist and UI/UX Designer
2018 – Dec 2022

UPWORK · FREELANCE, CLIENTS WORLDWIDE

- Translated brand strategy and positioning into visual identities and UI systems for websites and apps.
- Owned every stage of each project: research, wireframing, visual design and client communication.

UI/UX Designer
Oct 2014 – Jan 2017

FREELANCER.COM

- Designed sitemaps, wireframes and interactive prototypes for the company's web, desktop applications and other digital products.
- Designed brand assets, marketing collateral and app and website interfaces.

Graphic Designer
2011 – 2014

INNOVANTAGE, INC.

- Designed web interfaces and marketing assets for client and internal products, with layout work and light front-end coding.

Web Content Editor
2009 – 2011

INTERSHIP NAVIGATION CO. LTD

- Planned, created and published e-learning content and layouts for maritime training courses for seafarers.
